Importance: High

Radhika,

Thank you for the opportunity to provide comments, and for the great teamwork on this project.

Based on last night's version of the briefing paper, we had only four comments (suggested wording is set out on the attached):

Ex. 5 Deliberative Process (DP)

We hope these comments are helpful.

Larry

Good morning – thanks to everyone's great work to pull these documents together. I have reviewed, made some edits, and the documents are attached. (Elizabeth: I worked off the docs that included Dimple's comments).

I believe that Larry has to review and sign off on these by 930am. I recommend everyone else keep pens down – these are great backgrounders and the important thing for tomorrow is the discussion.

Thanks!
Radhika

Elizabeth-

These are the drafts as requested: (1) the Briefing Paper (R5 lead) and (2) the Options Paper (OGC lead). R5 had a few questions on the Options Paper, but we wanted to leave the pen in the hands of HQ there so they can decide how to address.

I'm both attaching the current Word version of the documents *and* cutting and pasting the text into this message, in case people are reviewing from their phones.

Thanks to all. A true collaboration across EPA.

-Rett

Randa is doing the agreed upon revisions to one pager now so that will be shared shortly, along with the options paper.

Hi Everyone:

The team from Region 5 are finishing up the draft briefing materials for the Administrator's briefing on Wednesday.

In the interests of time, Cheryl, when the draft documents are ready (options paper and one-page summary), please send them to everyone on this chain for simultaneous review.

The materials must go to the Administrator's office no later than 12 tomorrow, so please get me your edits no later than **9:30 AM** so that I can compile the edits and get the documents to Janita to send up.

Thanks.
